DOCTOR-PATIENT RELATIONSHIP

INFORMED CONSENT

CHIROPRACTIC

It is important to acknowledge the difference between the health care specialists of chiropractic, osteopathy and medicine. Chiropractic health care seeks to restore health through natural means without the use of medicine or surgery. This gives the body maximum opportunity to utilize its inherent recuperative powers. The success of the chiropractic doctors procedures often depend on environment, underlying causes and spinal conditions. It is important to understand what to expect from chiropractic health care services.

ANALYSIS

A doctor of chiropractic conducts a clinical analysis for the express purpose of determining whether there is evidence of Vertebral Subluxation Complex (VSC). When such vertebral subluxation complexes are found, chiropractic adjustments and ancillary procedures may be given in attempt to restore spinal integrity. It is the chiropractic premise that spinal alignment allows nerve transmission throughout the body and gives the body an opportunity to use its inherent recuperative powers. Due to complexities of nature, no doctor can promise you specific results. This depends upon the inherent recuperative powers of the body.

INFORMED CONSENT FOR CHIROPRACTIC CARE

A patient, in coming to the doctor of chiropractic gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis and analysis. The chiropractic adjustment or other clinical procedure are usually beneficial and seldom cause any problem. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give a chiropractic adjustment, or health care, if he is aware that such care may be contraindicated. Again, it is the responsibility of the patient to make known or to learn through health care procedures whatever he/she is suffering from: latent pathological defects, illnesses or deformities which would otherwise not come to the attention of the doctor of chiropractic. The patient should look to the correct specialized, non-duplicating health service. The doctor of chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regime.

RESULTS

The purpose of chiropractic services is to promote natural health through the reduction of vertebral subluxation complex. Since there are so many variables, it is difficult to predict the time schedule efficacy of the chiropractic procedures. Sometimes the response is phenomenal. In most cases there is a more gradual but quite satisfactory response. Occasionally, the results are less than expected. Two or more similar conditions may respond differently to the same chiropractic care. Many medical failures find quick relief through chiropractic. In turn, conditions, which do not respond to chiropractic, care, may come under control or be helped through drugs or surgery. The fact is that the science of chiropractic and medicine may never be so exact as to provide definite answers to all problems. Both have made great strides in alleviating pain and controlling disease.

TO THE PATIENT

Please discuss any questions or problems with the doctor before signing this statement of policy.

I have read and understand the foregoing.

Patient Financial Responsibility Policy

At Insight Neuro-Chiropractic Center our goal is to provide the best service possible. Please call us before your appointment if you need to make special financial arrangements to pay your bill.

General

a. The patient's insurance policy is a contract between the patient and his or her insurance company. However, **all charges regardless of the insurance coverage are the patient's responsibility** and the patient is ultimately responsible for any unpaid balances. As a courtesy to our patients, Insight Neuro-Chiropractic Center bills the patients' insurance and makes every effort to ensure that claims are promptly and correctly processed. Insight Neuro-Chiropractic Center also bills patients' secondary insurance when patients provide complete insurance information.

b. Patient co-pays are expected at the time of service, and any remaining payment is due in full within 30 days of receiving the first bill from Insight Neuro-Chiropractic Center. We accept cash, checks, and money-orders. If you can't pay your balance within 30 days, please contact us at P: 810-275-9366. There are several ways you can pay your bill, including possible payment plans, and an Insurance Department representative will help find the right one for your financial needs. We will also work with you to determine if you are eligible for financial assistance.

Waiver of Co-Pays and Deductibles

a. It is the policy of this practice to bill all applicable out-of-pocket amounts and to make reasonable efforts to collect such amounts in accordance with our collection practices and procedures. Insight Neuro-Chiropractic Center will not waive co-pay, coinsurance, or deductible amounts for insured patients, except in the limited circumstances set forth in this Patient Financial Responsibility Policy. Such determinations may be made only after sufficient investigation has been made and it is expected that such waivers will be *rare*.

b. If Insight Neuro-Chiropractic Center does waive co-payments or deductibles for a patient based on the patient's financial status, we will maintain a record of the information upon which we based this decision. Waivers of co-pays and deductibles may also be made after reasonable collection efforts have failed to result in the collection of the fees. Insight Neuro-Chiropractic Center will maintain records of what collection efforts have been made for fees waived in these instances.
